1 Overview

Producer name: Research and Production Enterprise “ECOFUEL” LLC (“NPP “ECOFUEL” LLC)

Producer location: 236010, Kashtanovaya alleya str., 1a, Kaliningrad, Kaliningrad region, Russia

Geographic position: 54°42'35.6"N; 20°28'03.1"E

Primary contact: Aleksey Zagulyaev, 236010 Kashtanovaya alleya str., 1a, Kaliningrad, Kaliningrad region, Russia, +7 4012 67 13 15, zak-alex@inbox.ru

Company website: www.ecofuelkld.ru

Date report finalised: 10/Jan/2020

Close of last CB audit: 05/Feb/2020, Kaliningrad

Name of CB: NEPCon

Translations from English: Yes

SBP Standard(s) used: Standard 2 version 1.0,
Standard 4 version 1.0,
Standard 5 version 1.0

Weblink to Standard(s) used: <https://sbp-cert.org/documents>

SBP Endorsed Regional Risk Assessment: not applicable

Weblink to SBE on Company website: not applicable

2 Description of the Supply Base

2.1 General description

Research and Production Enterprise “ECOFUEL” LLC is a Biomass Producer (BP) located in the city of Kaliningrad, Russia. The company was founded in 2018. The pellet production line is to be launched April 2019. The establishment of the company is a result of a sustainability program of the car producer Holding Autotor. NPP ECOFUEL LLC has an exclusive, long-term contract for wood waste utilization with Holding Autotor. NPP ECOFUEL LLC will only be using feedstock of the Holding Autotor.

NPP ECOFUEL LLC holds a FSC CoC certificate for FSC Recycled material.

NPP ECOFUEL LLC accumulates substantial volumes of post-consumer recycled material for the production of SBP-compliant biomass (see Table 1). The feedstock consists of pallets and wooden boxes made of low-value tree species.

The pallets and wooden boxes are specially made for the car parts Autotor procures. The pallets and boxes are for single use and do not undergo chemical treatment; they do not contain for instance glue.

Nevertheless, the feedstock is checked continuously upon receipt. If any veneer or compressed boards like OSB, or HDF are found, they are to be segregated from pellet production.

Feedstock used in pellet production

Table 1

SBP Product group	Share in the incoming feedstock during reporting period	Number of suppliers	Tree species
Controlled feedstock	0%		
SBP-compliant primary feedstock	0%		
SBP-compliant secondary feedstock	0%		
SBP-compliant tertiary feedstock	100%	1	Смешанная древесина
Non-SBP feedstock	0%		

2.2 Actions taken to promote certification amongst feedstock supplier

The supplier of feedstock Holding Autotor is not a company in the forest sector and does not plan to obtain an FSC certificate.

2.3 Final harvest sampling programme

N/A, only post-consumer recycled material is used.

2.4 Flow diagram of feedstock inputs showing feedstock type [optional]

One feedstock Supplier: <i>Holding JSC "Autotor"</i>	→	<i>BP: Research and Production Enterprise "ECOFUEL" LLC</i>
Sustainability program on disposable packaging materials	100% post-consumer recycled wood	Assessment of every delivery of recycled wood

2.5 Quantification of the Supply Base

Supply Base

- Total Supply Base area (ha): N/A
- Tenure by type (ha): N/A
- Forest by type (ha): N/A
- Forest by management type (ha): N/A
- Certified forest by scheme (ha): N/A

Feedstock

- Total volume of Feedstock: 1782,06 tons;
- Volume of primary feedstock: N/A;
- List percentage of primary feedstock (g), by the following categories. Subdivide by SBP-approved Forest Management Schemes:
 - Certified to an SBP-approved Forest Management Scheme – N/A;
 - Not certified to an SBP-approved Forest Management Scheme - N/A;
- List all species in primary feedstock, including scientific name - N/A;
- Volume of primary feedstock from primary forest - N/A;
- List percentage of primary feedstock from primary forest (j), by the following categories. Subdivide by SBP-approved Forest Management Schemes:
 - Primary feedstock from primary forest certified to an SBP-approved Forest Management Scheme - N/A;
 - Primary feedstock from primary forest not certified to an SBP-approved Forest Management Scheme - N/A;
- Volume of secondary feedstock: specify origin and type - N/A;
- Volume of tertiary feedstock: 1782,06 tons (post-consumer wood).

3 Requirement for a Supply Base Evaluation

SBE completed	SBE not completed
<input type="checkbox"/>	X

Only post-consumer tertiary feedstock is used for SBP-compliant biomass production, SBE is not applicable.

4 Supply Base Evaluation

4.1 Scope

N/A

4.2 Justification

N/A

4.3 Results of Risk Assessment

N/A

4.4 Results of Supplier Verification Programme

N/A

4.5 Conclusion

N/A

5 Supply Base Evaluation Process

N/A

6 Stakeholder Consultation

N/A

6.1 Response to stakeholder comments

N/A

7 Overview of Initial Assessment of Risk

N/A

8 Supplier Verification Programme

8.1 Description of the Supplier Verification Programme

N/A

8.2 Site visits

N/A

8.3 Conclusions from the Supplier Verification Programme

N/A

9 Mitigation Measures

9.1 Mitigation measures

N/A

9.2 Monitoring and outcomes

N/A

10 Detailed Findings for Indicators

N/A

11 Review of Report

11.1 Peer review

No peer review conducted this year.

11.2 Public or additional reviews

The Resource Base report is available on the company's website and on the SBP website. All interested parties can send their comments to the Executive Director Aleksey Borisovich Zagulyaev at zak-alex@inbox.ru.

12 Approval of Report

Approval of Supply Base Report by senior management			
Report Prepared by:	<i>Zagulyaev Aleksey</i>	<i>Executive director</i>	<i>10/01/2020</i>
	Name	Title	Date
The undersigned persons confirm that I/we are members of the organisation's senior management and do hereby affirm that the contents of this evaluation report were duly acknowledged by senior management as being accurate prior to approval and finalisation of the report.			
Report approved by:	<i>Derznovenko Alexander</i>	<i>General director</i>	<i>10/01/2020</i>

13 Updates

13.1 Significant changes in the Supply Base

There were no any significant changes in the Supply Base.

13.2 Effectiveness of previous mitigation measures

N/A

13.3 New risk ratings and mitigation measures

N/A

13.4 Actual figures for feedstock over the previous 12 months

1782,06 tonne per year of tertiary feedstock (post-consumer wood)..

13.5 Projected figures for feedstock over the next 12 months

8000 tons a year.
